PMO Advisory No. 2022-01

BUILDING DISINFECTION

Dear Tenants,

On **Sunday, January 09, 2022**, A. T. Yuchengco Centre will conduct **disinfection of the building common areas**. Areas within the building covered by the disinfection includes main lobbies, hallways, fire exits, elevator car lifts and lobby areas, male and female comfort rooms, machine room, AHU rooms, electrical rooms, and PMO offices.

The activity will **start** at around **10am** and will be conducted by our service partner, Buildtime Contractors Corporation (Fog2Zero). Estimated time for the disinfection process of all the building common areas to be completed is at around **6pm** of the same day.

The disinfection process will be a combination of wiping of high contact surfaces with disinfectants, UV and steam sterilization, and dry fogging.

We would also like to remind all of our tenants to conduct their own regular disinfection at their leased area.

Let us all work together to stop the spread of any disease and maintain our building a safe work place for everyone.

For any clarification, feel free to call us at (02) 8808-1770.

Kind regards,

ENGR. KIM YEL T. TABUCAL

Property Manager
